★ BIOGRAPHY

Over 35 years experience as a graded stunt performer, experienced stunt co-ordinator, fight arranger and qualified Horse Master, has provided me with the expertise to develop over the years into a knowledgeable and well respected stunt co-ordinator. Working with my widely talented team of professional stunt performers and including many hours of dedicated preparation, I am able to create powerful and dramatic stunt sequences, big or small, with the confidence that my team and the crew are safe. I have a natural technique for tutoring actors of all ages, to enhance their confidence and ability and maximise their physical involvement in the safe and controlled environment I create. This enables them to perform physical action and extreme fight sequences with consistency and outstanding results.

I am composed, passionate and enthusiastic. My objective is to support and enhance the directors vision.
